MEMORANDUM FOR: Chief, Medical Staff
Director of Logistics

SUBJECT : Audit of Narcotic and Related Drug Controls

1. Attached is a copy of dispatch [REDACTED] from our PE field auditor which indicates, in paragraph 2, that effective audits of drug controls cannot be made because the stations do not have complete listings of controlled drugs. This is essentially the same problem as was encountered in the recent audit of the Headquarters Medical Staff. We would appreciate being furnished sufficient copies of the controlled drug listing which you are now compiling so that we may send it to our four field branches. Also, we recommend that these listings be sent to all field installations that stock such drugs.

25X1A6C

2. In paragraph 3 of the ^{FIN ADMIN} attached dispatch, the field auditor suggests that [REDACTED] ^{LOG} be revised to provide that all regulated drugs be recorded on stock record cards. We would appreciate the comments of both the Medical Staff and Logistics Office on this matter.
